# Oleeo Recruit for NHS

End-to-end talent acquisition software designed especially for the NHS with integrations to NHS Jobs and ESR.

Helping you hire more diversely whilst saving recruiter time!

Reduce recruiter workload & improve candidate experience

Implement multiple pre-screening criteria to reduce the time spent sifting through unqualified candidates.

Oleeo Recruit for NHS is fully mobile optimised to improve the candidate experience.
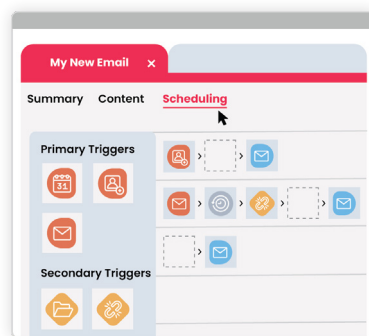

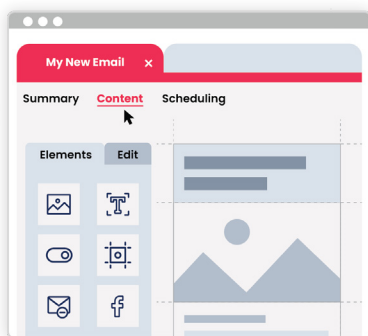

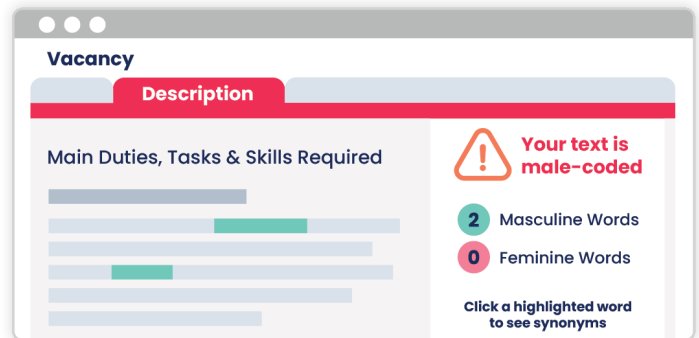

Automate personalised communications to ensure candidates are kept up-to-date and engaged throughout the application process.

Pre-employment and right to work check functionality is built-in to flag which checks you'll need based on the individual's circumstances with real-time status updates!

Recruitment with diversity front of mind

Oleeo Recruit for NHS was built to complement the NHS recruitment inclusion framework from end-to-end.

Our tech will help you create gender neutral job posts, remove bias from the screening process and seamlessly implement panel interviews.

Nurture your talent pool

Our candidate relationship manager (CRM) will help you to automate workflows, create bespoke communications, and build unique landing pages.

Oleeo's built-in internal mobility portal simplifies internal staff redeployment.
